

Nasal Spray Pump

Multi-dose Nasal Spray Pump

Optional Nasal Actuator

* Crimp on only

Main Parameters:

Dosage: 45mcl to 220mcl

Compatible neck size, 18/410, 18/415, 18GL, 18TE, 18DIN, 20/410, 24/410 for screw-on
20mm for snap-on
20mm for crimp-on

Key Features:

Precise dosage, excellent spray atomization
Universal and modular design, stable performance & anti-clogging
Fully physical & chemical validation, high level microbiological safety
Comply with CP, EP, USP food & drug direct contact regulations
US DMF# 031363

Innovation & Patented Products

Child Resistant Nasal Pump

Key Features:

Comply with 16CFR1700.20

Tamper-evident closure

15ml and 30ml HDPE bottle are available

Invention Patented in China, USA, Europe and Korea

Preservative Free Nasal Pump

Key Features:

Air filter membrane

Air filter compatible with medicine solution

0.14ml dosage available

Invention Patented in China, USA, Europe and Korea

Preservative Free Eye Drop Bottle

Key Features:

Air filter membrane

Passed microbiological challenging test

5ml, 7ml, 10ml volume available
