

# Innovation, flexibility and choice, that's the Beatson Clark difference

## Innovative

With a unique pro-active approach to design, innovation is at the heart of Beatson Clark. An Award winning design service with 3D CAD systems delivers over 20 new designs for clients in the food, beverage and pharmaceutical markets every year. An extensive general sale range has also been built up over the years, with containers in a variety of shapes and sizes.

## Flexible

In today's competitive marketplace, clients need a supplier who can be flexible enough to meet the challenges they face. With a worldwide distribution base, Beatson Clark

offer speed to market with fast tracking on new products and bespoke containers from just 500k units. Niche products are a speciality and our flexible approach means we are capable of both small and large runs, subject to the needs of our clients.

## Choice

Beatson Clark is the first choice for those looking to the future of packaging. Our policy of continual improvements and investment programs are delivering superior products. Couple these with enhanced recycling and green benefits and Beatson Clark is the environmental choice too. Several lightweighted products already feature in the

general sale range and with capacity in both clear and amber glass; Beatson Clark remains the glass manufacturer of choice for premium brands.

Why use glass?

## Glass is the sustainable and safer choice

- 100% infinitely recyclable & never degenerates
- Made from locally sourced raw materials
- On average containers have 60% recycled content
- Does not contain harmful chemicals such as Bisphenol A or Latex
- Totally inert and keeps the product safe from contamination
- Only packaging material exempt from REACH registration
- Only packaging material to receive GRAS classification from the American FDA
- Amber glass protects the contents from ultra-violet light

DELIVERING THE DIFFERENCE

## NECK DETAILS

### ROPP

Roll on puffer proof - tamper evident, suitable for beverages or pharmaceuticals

### R3

Suitable for general purpose, single start thread, selected sizes can be used with child resistant closure

### GPI-400

U.S. Standard variation on R3

### Jaycap

Finish for tamper evident wadless closure. Easily fitted, suitable for pharmaceutical products

### R6

Deep general purpose finish, single start thread, suitable for pharmaceutical products

### Menshen

Pouring Lip finish for speciality tamper evident closures, suitable for chemical products

## PACK DETAILS

### BULK

Shrink wrapped in bulk

### P-PACKS

Shrink wrapped modular packs

### TRAYS

Open cardboard trays

### D-PACKS

Cardboard trays individually shrink wrapped

### CARTONS

Cardboard boxes with individual bottle dividers

All pallets are heat treated to ISPM15.

They are hot brand certified and marked with the IPPC logo.

Certain packaging types may not be available on some products. Full packaging specifications available on request.

## REGULATIONS/TECHNICAL

### CONTAINER DECORATION

We offer pressure sensitive labelling, shrink sleeving and spray coating for the majority of standard glass containers. Information available on request.

### ULTRA-VIOLET LIGHT PROTECTION

Beatson Clark amber glass affords protection to the contents from attack by ultra-violet light below a wavelength of approximately 450 Nanometers. This meets the requirements for light transmission in the US and European Pharmacopoeia and the British Standard BS1679 - Containers for Pharmaceutical Dispensing.

All Beatson Clark glass containers are manufactured in accordance with the Materials and Articles in Contact with Food Regulations 2005.

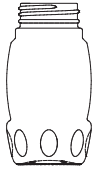

Beatson Clark manufacture 'Soda Lime Silica' glass that conforms to both European and US Pharmacopoeia type III standards for hydrolytic resistance.

Please note: The measurements in this leaflet are intended as a guide only.

Product photograph is for illustration purposes only. Capacity listed is to fill point.

Full specification drawings available on request.

All products are available in white or amber subject to minimum quantities.
