If anyone CAN – we CAN!

Cylindrical cans

Cylindrical cans – tinplate packaging for specific target groups for the highest demands

Cylindrical cans

Pirlo cylindrical cans for food or chemical products

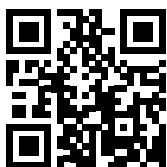

The benefits of cylindrical cans „made by Pirlo“ at a glance:

- ⇒ For the highest demands in terms of transport and heat resistance
- ⇒ With and without UN hazardous products certification
- ⇒ Wide range of top end perforations
- ⇒ Plastic or metal handle
- ⇒ Centralised or decentralised perforation
- ⇒ Outside bare, painted printing surface
- ⇒ Inside bare
- ⇒ Stackability of the cylindrical cans even with metal handle
- ⇒ Standard products in stock

Our experts will be happy to help you with any questions you may have pertaining to cylindrical cans. Special can sizes are possible on request.
