Who we are:

"PackGroup" - the leader of the domestic market on production of polymeric containers, packing and the caps, providing full complex of works starting from the sketch to a ready-made product

Our mission:

- to develop the sphere of polymeric containers and packaging in the domestic and world market
- to promote dynamic development of our clients,
- to provide our clients with products of the superior quality, in the shortest terms and for reasonable price.

Our aims:

- keeping leading positions in the market;
- developing and using innovative production technologies, modern control systems;
- expanding the product range;
- creating the most favorable and convenient conditions of cooperation for our clients and partners.

Our values:

- our clients;
- corporate spirit;
- mobility and efficiency of work;
- using of innovative ideas and advanced technologies.

Our advantages:

- we are the uniform harmonious mechanism;
- our team consists of experts and professionals in the field;
- for us on the first place is always our team and our clients;
- we are fully responsibility for our work;
- we work quickly, well organized and only with the purpose of improvement quality and efficiency;
- geographically we are located in the Eastern Europe, which allows us quick delivery terms and calculation of optimum route of delivery.

We can:

Realize any idea of our clients.

PackGroup consist of Ellipse PJSC, CrystalGlass PE and PackStore LLC; united by the idea of development the market of polymeric containers and packagings in Ukraine and European countries.

The main activity of PackGroup is development, production and introduction of polymeric packaging (bottles, containers, jars) caps and accessories for the medical, perfumery, cosmetic, food, agricultural and chemical industry.

In our work we place particular emphasis on quality of product, expansion of range and quality of customer service.

Production is issued in rooms B and C classes (requirements for purity of production rooms for the medical industry) on modern processing equipment from raw materials allowed for application in the medical, food, perfumery and cosmetic industry.

We can offer our client a full range of services connected with development, professional selection and delivery of any cosmetic container, packaging and accessories. Considering needs of our clients, we offer packaging and accessories both for production "mass-market" and for more expensive segment of the market.

Also one of the priority directions of the company is the foreign economic activity connected with import of packaging and accessories from global manufacturers, the Asian and European countries, for perfumery and cosmetic industry.

Working with well-known Ukrainian and Russian producers of pharmaceutical preparations and cosmetics, we proved ourselves as the reliable partner capable to provide requirements of the most exacting customers.
