Ring Cup

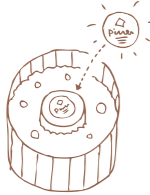

Ring cup

This new style of cup has been created by putting a tube in the center of our standard PET cup. Use it for donuts, cup cakes or savory breads. Let your creativity loose and produce some fun, eye-catching treats!

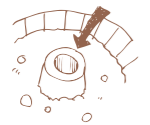

[Main use Baking, Cake cup]

Use the top effectively

Why not attach a sticker of the logo for your shop or the product to the top of the central tube?

Take advantage of the ring shape

The cup with a hollow tube makes the ring shape look more clearly.

* Batter may leak through the seam joint of the tube with the cup depends on the viscosity of the batter. Please be sure to order a sample and test it before making your purchase.

Greaseproof unbleached kraft paper is an original material only by TEMMA!

Up till now, unbleached kraft paper was thin and unsuitable for baking trays. In collaboration with paper manufacturers, TEMMA has developed a kraft paper with the strength and thickness needed for a baking tray which is also greaseproof and unbleached. The simplicity and materials draws out the taste of your sweets and lets the ingredients speak for themselves.

Kraft baking tray

An original material exclusive to TEMMA. As well as for baking, it's also great for serving bread or sweets.

How to use paper moulds.

1. Pour the batter directly into the cups. (No pre-greasing!!)

2. Place the paper moulds on a baking tray then put in the oven.

3. Bake, then all done!!

"Super simple and extremely easy!!"

Disposable!!

After eating, just throw them away!

What are the advantages of the TEMMA bakeware?

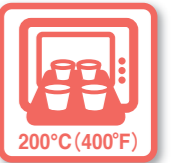

1. No need for metal mould!

The paper moulds are self-standing for oven baking. A metal mould is not required. They are easily removed from the baked food without sticking. No need to grease before baking.

2. Easy baking & disposable!

Easy to use!! Just fill each cup with batter, then bake in the oven. Heat resistance is up to 200°C (400°F). Cups are disposable!! Reduces time to clean up.

3. Perfect for gifts!

Great for gifts! They maintain brilliant colors and beauty even after baking! Simple confections can be gorgeously presented.

4. Safe!

No recycled paper or paper containing fluorescence dye is used in TEMMA bakeware. TEMMA bakeware is completely safe for food usage.

5. Eco-friendly!!

Principal material used in TEMMA bakeware is paper. Paper made from wood which is recyclable and emits no CO₂ during burning. Very friendly to the environment. No process for cleaning and sterilization is needed, reducing water and energy usage.

- Do not bake without dough inside.
- Do not expose the container to direct fire.
- Do not use it in a toaster oven.
- Store in a dry, well ventilated place.

Eco foods tray

Our eco foods trays are mainly recommended for frozen foods. They're made completely from paper, making them easier to recycle than plastic trays at a lower cost.

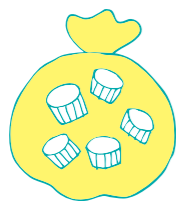

ECO foods tray

Make-To-Order Products

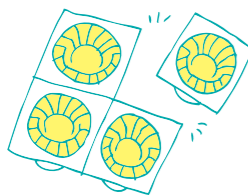

All-paper trays

The trays can be disposed of with regular household waste, leading to reducing amounts of rubbish. (The cups' interiors are coated with PET laminate, but they can be classified as paper products when separating for disposal.)

Each container can be separated

Each container can be separated from its set, making these trays perfect for storing frozen foods. There are a four-cup set and a six-cup set variations.

A wide range of use applications are possible. Please feel free to contact us.

Floral cup & Film cup

These refined, sensitive designs play a wonderful supporting role to bring out the superb flavors of a dish.

Please refer to page 69 for Floral cup & Film cup.

Greaseproof kraft bag

These bags are made from thin, flexible greaseproof tissue paper, so they do not curl in the way that laminated poly bags do. They are air-permeable, reducing stickiness from steam or oil and do not affect the flavor of the food. Custom printing is also available.

[Main use Bread, Food, Snack taking out]

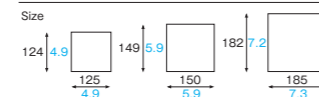

Custom printing can be ordered separately also.

Cup Separator & Forming system

original cup collection

Temma Cup Separator (TCS)

The "Temma Cup Separator (T.C.S)" is the culmination of our technology and know-how we have built over the years in design and manufacturing of molding machines for paper containers. This system provides automation of cup supply. Our technical department will give their full support while you are setting up and introducing the system and will continue with after-sales support.

If you are thinking about saving labor and improving efficiency in cup supply, please contact our sales representatives about our solutions.

The Five benefits of the TCS

1.

Laborsaving

Automated supply of cups saves you a lot of labor.

2.

Improving productivity

Improving cup supplying capacity will improve overall productivity.

3.

Support

Our technical department will look after your needs from helping with introduction and setup of the system through after-sale service.

4.

Variety

TCS doesn't just work with our products, but with any containers you wish.

5.

Reasonable pricing

The equipment itself is priced very reasonably and our cups are also economical.

Temma forming system

1

PRESS SYSTEM

Board press mould products

This system produces shallow, strong paper trays such as paper plates and food containers.

Thin paper press mould products

This system produces a great variety of forms, for example tulip-shaped baking cups.

Thin paper multi-press mould products

This system produces many cups with one press which saves cost, like glassine cups.

Composite paper press mould products

This system produces cups that are composite, for example PET and paper, meaning that we can produce even more functional containers.

Aluminum foil press mould products

We can produce a wide variety of shapes by utilizing the characteristic of aluminum foil.

2

ROLL UP SYSTEM

Muffin cup mould products

We can produce a wide variety of muffin cups which are standard items in any bakery.

Tubular composite paper mould products

This system produces jelly and mousse containers from composite paper. There are also many other possible applications.

Tubular press mould products

This system makes all sizes, from small cups all the way up to large sizes.

3

LARGE CUP SYSTEM

Tubular board mould products

This system produces large paper cups ideal for assortments of sweets or foods.

Tubular mould products with center barrel

This press makes it possible to make cake cups with a center barrel, such as for making chiffon cakes.

Shallow tubular mould products

This makes it possible to make shallow and wide cups from cardboard or fluteboard.

4

FLEXIBLE FORMING SYSTEM

Large flexible mould products

This flexible system makes it possible to create any shapes by using our proprietary moulding system.

Small flexible mould products

This mould produces small, cute shapes that are perfect for mascot style items.

5

ROLLING SYSTEM

Spiral mould products

This produces cylindrical or conical forms paper for the cercle or centers when making cornets.

6

STACKING FORMING SYSTEM

Stacking SD mould products

This produces tapered trays for stacking using a variety of materials in a variety of shapes and sizes.

Multifunctional stacking mould products

We can produce any shape you need for any function or application you can think of.

- Use our products to promote your fast food

Our stacking cartons find many applications as trays for takeaway purpose.

- Double cartons for set packages

The double carton type for hamburgers can be formed into a variety of shapes to attract the eye of your customers.

- A rich variety and widening applications

Package individual sweet containers in our paper trays. We will propose the best shape to suit your design and distribution method.

- Japanese style doublefolding cartons

If you are making Japanese style sweets with nature in mind, please try our paper containers. They will bring out the seasonality of your products.

A variety of designs for banquet lunches and other meals. Paper will help your cooking stand out and create an atmosphere.

- A new way to package fresh fruit and vegetables

These trays are made from paper that is much stronger than ordinary paper which protects the contents. Depending on the design on the paper, they can also serve as an effective advertisement.

We go beyond in our technical know-how

We, TEMMA have been successfully developing many products which were difficult to produce by existing mechanical equipments by designing and building our own new moulds and forming machines.

We continue to turn our creative ideas into unique, high-quality products by maximizing our technical know-how we have acquired over many years.

TEMMA creates the smiles that come with deliciousness.

At TEMMA, we have over 50 years' experience in manufacturing and selling paper containers for breads, cakes and other food items.

We believe that the products we produce must be equipped with designs and functions that make them easy for our customers to use in their food production and that convey the deliciousness of their contents when displayed in stores.

The manufacture's passion and the consumer's feeling.

We hold both of these with great importance as we continue our production day by day.

Company Information

Temma Shiki Co., Ltd. has been manufacturing baking cups, trays and packaging materials for confections and breads for over 50 years in Japan. At present, we are dealing with more than 1,000 items. Our share of sales is the highest in Japan, enabling us to become an essential company for the industry. Our company has a Technical Development and Research Division creating designs of machines and product molding. This Division has succeeded in producing many unique and varied products. Based on original technology and expertise acquired over many years, Temma Shiki Co., Ltd. constantly addresses the changing requirements and strives to produce high quality products on demand in this dynamic marketplace.

Approach to Quality and Hygiene

Quality and hygiene are critical factors for food cups and trays which are directly in contact with food. The basic concept of our company is "management believes quality is first priority." Safe materials from the raw materials and ink for printing are used in our products. Nara Plant has gained the ISO22000 standard. Our hygienic environment is the same as in food plants. We have achieved this through the installation of air showers and monitoring by a third party hygienic management company. We also have in place a unique and high standard quality control system, in addition to the ISO quality control system. Temma Shiki Co., Ltd. strives to supply high quality and reliable products that customers can use with absolute safety.

Nara Plant gained ISO22000.
