## P100 miniwrap

The Premier P100 “miniwrap” has been designed to provide a highly cost effective solution to efficiently and accurately applying full or partial wrap self-adhesive labels to round containers at speeds of upto 60 per minute.

# PremierP100 miniwrap

Fitted with the proven Premier P100 stepper driven label head, compact afterroll and adjustable label beak to ensure your products will be labelled accurately at linear speeds of up to 20m/min.

Almost any type of round container in glass or plastic can be labelled accurately with our minwrap system. Ideally suited to the food, pharmaceutical, healthcare, household and cosmetics industries.

The machine incorporates simple controls for easy set-up of the machine. Simple dials on the front of the machine control the conveyor and label web speed and label feed delay allow the machine to be quickly set-up by any operator.

## Features

- European CE build quality
- Siemens PLC control system
- Stepper motor driven label head
- 125mm web height kit
- Integrated 1.5m variable speed conveyor
- Compact afterroll unit

## Technical Data

Container width/diameter	Upto 150mm*
Container height	Upto 300mm*
Conveyor width	83mm / 115mm
Label height	10mm - 125mm / 210mm
Label length	10mm - 200mm*
Label Reel Size	300mm Ø / 76mm core
Max Speed	Upto 20m/min
Electrical	230V single phase 50/60Hz
Compressed air	60/80psi 6 bar (if coder fitted)
Overall Dimensions (LxWxH)	1500mm x 825mm x 1140mm
Operating height	900mm - 950mm
Weight	Approx 150Kg
