

Nashua 367-17 FoilMastic is ideal for a variety of indoor & outdoor sealing applications including:

- Taping joints and seams in class 1 flexible duct work for air conditioning, heating, and ventilation systems
- Indoor/Outdoor sealing of low, medium, and high pressure sheet metal HVAC systems
- Permanently seals cracks and seams in gutters, sheet metal roofing, trailers, and more

Feature

2 mil Aluminum Foil Backing

Butyl Rubber Adhesive

UL 181B-FX Listed
 SMACNA Testing & Research Institute Verified

Pressure-Sensitive Tape Construction

Low VOC

Benefit

Conformable to fit corners and joints
 Excellent mold and mildew resistance
 Resists UV and moisture for outdoor applications
 Repositionable during installation for perfect placement
 Permanent bond to surfaces for long-term seal
 Operating temperature range -20° F to 200°F
 Low odor and low VOC content

Meets code requirements for flexible duct installations
 Suitable for rigid sheet metal duct sealing

Replaces messy mastics - installs easily even in tight spaces, consistent thickness upon application, no cure time.

Can contribute to LEED[®] IEQ points

Standard sizes: 48mm x 31M and 72mm x 31M
