

High Strength Silage Sheets

Manufactured using the finest raw materials, the Visqueen range of high strength silage sheets is strong, tear and puncture resistant. Visqueen has an increased resistance to weathering, protecting your silage crop from the harshest of weather conditions, and its UV inhibitors provide essential protection from sunlight.

- **A significantly stronger silage sheet**
- **Excellent tear resistance**
- **High resistance to weathering and UV inhibitors**
- **Easy to apply and longer lasting**

Visqueen is manufactured using the latest 5 and 7 layer technology, ensuring all the technical aspects of the film are maximised resulting in a reliable, stable, high performing silage sheet.

Thickness	Width (m)	Length (m)	Dart Impact
125µm	8	25, 33 & 50	300 gram
125µm	10	25, 33 & 50	300 gram
125µm	12	25, 33 & 50	300 gram
125µm	14	25, 33 & 50	300 gram
125µm	16	50	300 gram
125µm	18	50	300 gram

Visqueen is manufactured in an ISO 9001 and ISO 14001 accredited facility.
