

Use American-made Beauty Tubes to respond to potential tariff increase.

While new Presidency Era might result in tariff increase, SR Packaging North America Inc. offers tubes made in Allentown, Pennsylvania, to accelerate beauty product launches. The local supply helps brands optimize cost and prompt "MadeInUSA" product sales with a good price strategy.

Made in USA

The potential tariff increase will result in import cost rises, and corner global supply chains, to make American-made products more appealing.

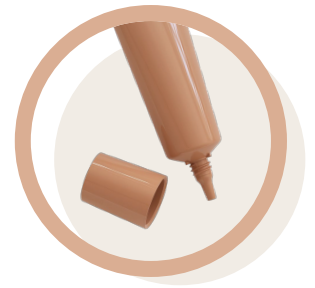

To respond ahead of time, project managers of beauty brands approach SR Packaging North America Inc. for local production support.

SR Packaging PA plant can help.

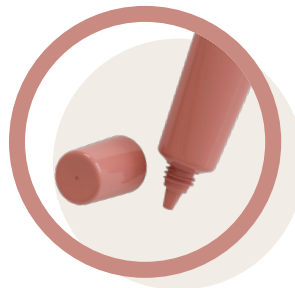

Available in 4 thread types with 6 closure options, the 0.75-inch tubes (Dia. 19 mm), filling capacity of 0.2 fl oz ~ 0.7 fl oz (6ml ~ 20ml), made-in-America beauty tubes by SR Packaging PA plant satisfy market demands with shorter lead time, swift delivery, omitting worry of tariffs.

From lip balm, lip gloss, makeup foundation, concealer, and hand cream, to mini skincare travel sets, the tubes can be customized according to the needs, using decorations of:

- * Color-matching
- * Gloss or matte finish
- * Silk screen printing (up to 3 colors)
- * Hot stamping

Cosmetic tubes made in America.
