Slider 16/17

Adhesive flap 18/19
- Flat bags
- Sealed hook
- Header

Drawstring 20

Tin-Tie 21

Bags without closures 22/25

PACKAGING ACCESSORIES 26
Hooks, Hang Tabs

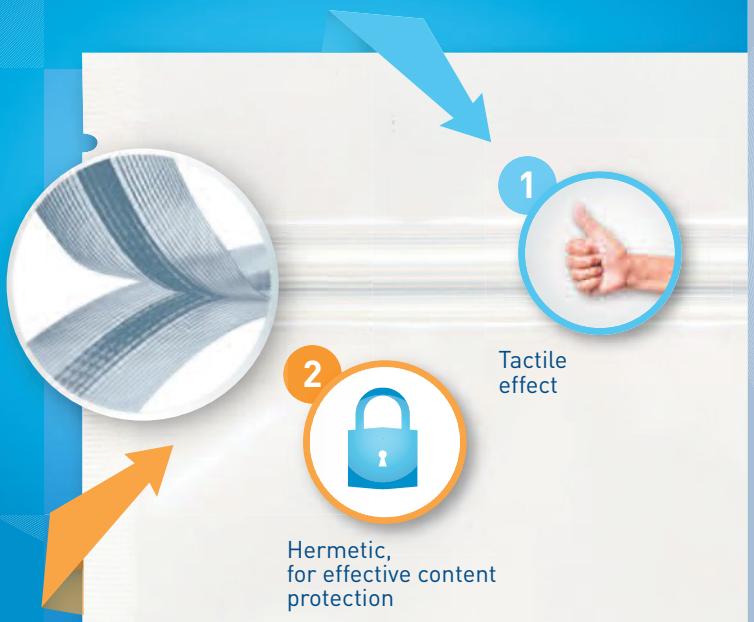
MERCHANDISING SOLUTIONS 27/28

HOW TO CHOOSE YOUR CLOSURE?

Sensogrip®

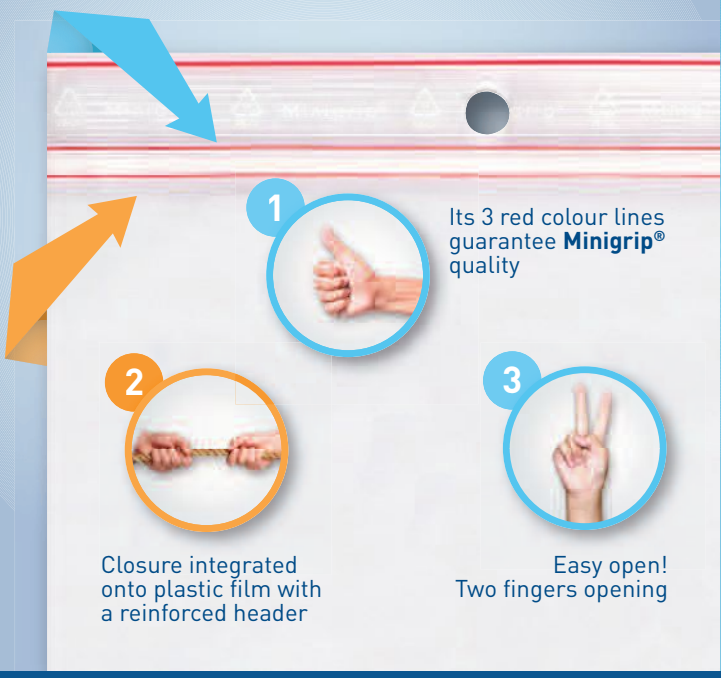
THE TRENDY

The latest addition to the **Flexico®** range, **Sensogrip®** is the closure with unique sensations:



Minigrip®

THE ESSENTIAL



Adhesive Flap

THE CLASSIC

Provides quick manual packing.
Adhesive can be either **resealable** or **permanent**.

Drawstring

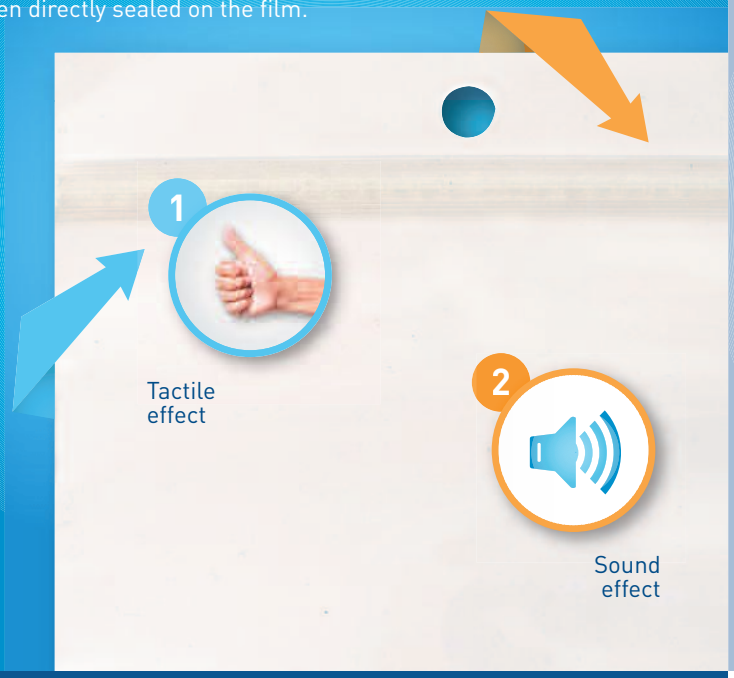
THE CONVENIENT

Retro packaging revitalized by **Flexico®**.
Colourful **drawstrings** - can be hung anywhere - displays your products perfectly.

Zipgrip® clicky

THE DOUBLE EFFECT

This new zipper offers both a tactile effect and a clicky sound when closing. Available on a wide choice of materials when directly sealed on the film.



Slider

THE UNIVERSAL

Easy to use and secure thanks to the patented technologies, it is perfectly convenient for multiple uses.
The slider is available in **plastic** and **metal**.

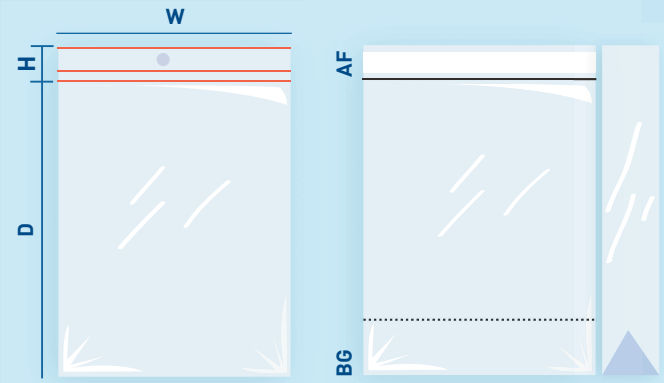
Tin-tie

THE MODULAR

A flexible metal band is integrated at the top of the bag and can adapt to the height required depending on the contents .

HOW TO CHOOSE YOUR DIMENSIONS?

All our dimensions are in mm.
To design your bag properly it is important to forecast some additional mm taking into account the thickness of your product, its shape and the closure of your bag.
For heavy products a Bottom Gusset will be preferred.



W = Width: Dimension of bag from edge to edge
D = Depth: Effective dimension.
H = Header

AF = Adhesive Flap - additional flap with or without adhesive to close the bag
BG = Bottom Gusset - allow bag volume increase and box stability

WHICH FILM TO SUIT YOUR NEEDS?

TRANSMISSION RATE COMPARISON 0_2 AND H_2O OF THE MAIN FLEXIBLE POLYMER

FILM MAIN FEATURE COMPARISON TABLES*

Features \ FILMS	PET/PE	PET/Alu/PE	PAP/Alu/PE	PET Met/PP	PET Met/PE	PE	PP	BOPP
Transparency	+	Opaque	Opaque	+	+	+	++	+++

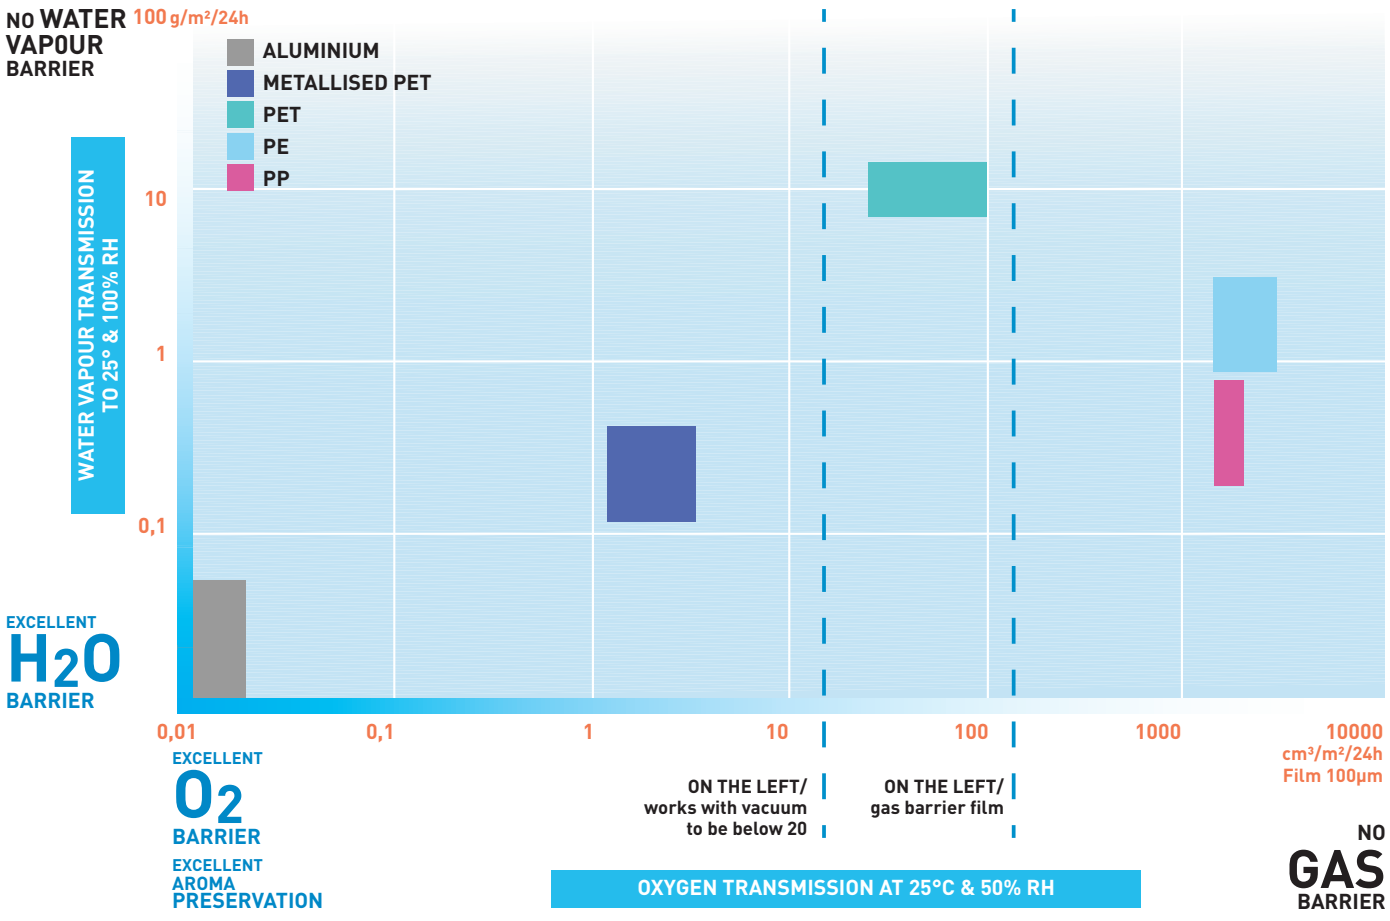
Aroma preservation	0	100 %	100 %	0	0	0	0	0

(*) These information are purely indicative, it may change depending on the film thickness. This excludes Flexico responsibility.



HOW TO CHOOSE YOUR BAG?

FLAT BAG

This is the most common format for plastic bags.

BOTTOM GUSSET

(BG) The bottom of the bag is folded to add volume and also allows it to stand-up.

DOYPACK®

(Stand-up) The size is determined by the shape of the pouch.
This format ensures rigidity of the pouch with the laminated structure protecting the contents.

K-SEAL

(Stand-up) This format differs from the Doypack® by the construction of the stand-up base. It offers the same rigidity and content protection benefits.

BLOCK BOTTOM BAG

(Stand-up) The bottom of the bag is flat and square. Once unfolded the card base allows the bag to stand perfectly upright.

MULTI-USE POCKET BAG

Pocket size wallet type bag with bottom gusset.

BOX POUCH

(Stand-up) This new format is easy to fill and provides the volume and stability of a box.
With its side gussets and flat bottom it provides excellent presentation.

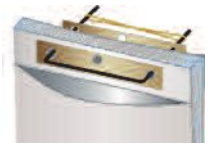
HOW TO CHOOSE YOUR FINISH?

HANGING TYPES

EURO SLOT
For double prong.

PUNCHED HOLE
For single prong hole.

HOOK
For heavy product.

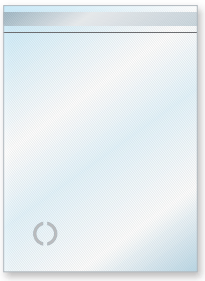


WICKETT BAGS
2 hanging holes for an easier packing.
A bundle of bags on a metal double prong. For manual or automatic packing.

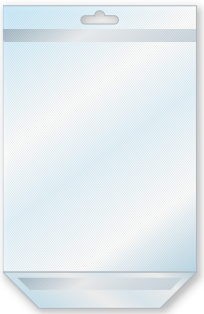
THÜRLING BAGS
Hanging hole for an easier packing.
A bundle of bags bound by a plastic tab.
For manual or automatic packing.

SPECIFIC TREATMENT

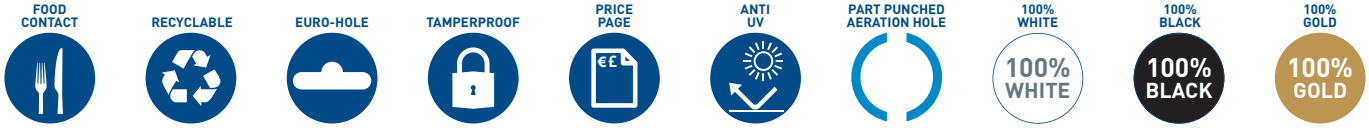
PART PUNCHED AERATION HOLE
A wide choice of holes & cuttings to expulse air or for an easier opening.



BOTTOM-FILLED
To hang easily your product.



PICTOGRAMS



Flexico®, the tailor-made packaging expert

BECAUSE **EACH PACKAGING NEED IS UNIQUE, FLEXICO®** TAILORS YOUR BAGS OR PROFILES.

Expert of bespoke packaging for 60 years, Flexico group develops unique ranges of resealable bags to respond to your needs. Regardless of the application or the sector of activity, our sales team will provide you with the best technical and innovative solutions in the shortest possible time.

Sensogrip® bags

A unique sensory experience!

Designed to offer a unique sound and tactile sensation without loss of its technical or environmental properties, Sensogrip® closure is the result of 2 years of R&D.

An exclusive and patented Flexico® design:
- The closure for all, whatever their age or ability (hear and feel the effortless opening and closing of this intuitive closure).
- Contains and protects your product from external contamination (limits exposure) to air, and guarantees the hygiene of your product.

Convenience:
Easy to open and to close for everyone

1

Unique consumer **experience**
thanks to the sound and tactile effect

2

Better product **protection** and **preservation**
