Experience reorganised

For over 45 years, Jokey has stood for outstanding expertise in the field of plastic injection moulding. We prove this every day in four plastic processing divisions. These are connected by one objective: to offer our customers solutions of the highest quality. To reflect our concentrated expertise, we have reorganised the Jokey Group:

Packaging

In the packaging sector, Jokey is one of the leading producers worldwide. Our outstandingly extensive range of buckets, trays and boxes offers top-quality filling material and industry solutions. User-friendly handling, practical accessories and state-of-the-art decoration processes support you in marketing your products.

Individual

Our specialist division for custom-mould packagings implements customised packagings in accordance with your wishes and specifications. Our development department and our own tool construction company develop your packaging idea until it is ready for series production.

Technics

Jokey Technics produces precision parts made of plastic for the automotive, electrical and consumer goods industries. At our plant in Sohland, we offer you an outstanding vertical range of manufacture: from planning to tool construction, right through to assembling entire modules.

Spa

The Spa division produces bathroom and sanitary furniture in contemporary designs offering functionality down to the last detail. The range includes mirror cabinets, of the Jokey brand, mirrors from Imagolux and mirror cabinets from Sieper.

A family-owned company – and your global partner

At Jokey, you enjoy all the advantages of a family-owned company: We make your aims and challenges our own. We work with our whole heart and great passion to offer you top-class, innovative solutions which will ensure your success on the market. Customer proximity is practised actively at Jokey – with a unique marketing depth and expert contacts at 14 production locations in 11 countries and a worldwide sales network. The great demands we make of ourselves and solid growth have turned us into what we are today: an international group of companies with outstanding plastic expertise and a preferred industry partner.

Herbert Kemmerich

The Chairman of the Board is responsible for the strategic orientation of the Jokey Group. His duties focus on sales, marketing and development. Together with his brothers, Herbert Kemmerich took over Jokey Plastik from his father in the early 1970s and expanded it from a small company to a global corporate group.

Ralf Kemmerich

Ralf Kemmerich is responsible for the operative sector of the Jokey Group. Together with Herbert Kemmerich, he is continuing the successful development of the company in the third generation.

The headquarters of the Jokey Group in Wipperfurth, Germany.

We use plastic to create quality of life

Jokey packagings can be found in every home, on every building site and in every hobby room.

High-tech innovations for maximum functionality and convenience.

With our products we want to make the world a little easier, safer and better to live in.

Each day Jokey packagings transport, store and protect foods, chemicals, construction chemicals and numerous other filling materials. Our light and secure plastic packagings guarantee the supply of goods to millions of people.

We optimise the function of our packaging continuously in order to make it more user-friendly and more environmentally-friendly: With small, easy-to-open packagings we provide answers to the demographic change. We develop lighter packagings, thus consuming a smaller quantity of valuable resources. Using intelligent designs, we optimise production and logistics processes and reduce CO² emissions.

The best has never been good enough for us

The Jokey Group employs state-of-the-art technical equipment in all its development and production processes.

How valuable an innovation is only becomes apparent over time.

For over 45 years Jokey has defined the benchmark in the packaging industry: Our service-proven Jokey Euro Tainer (JET), for instance, is today the epitome of the versatile, round packaging bucket throughout the industry. To give one further example from many: the award-winning Jokey Coating Tainer (JCT), the first plastic box type for the coating industry which enables the boxes to be stacked in each other.

Innovative strength and technology go hand in hand at Jokey: With us you will always profit from the latest production and decoration processes. We were trailblazers for eight-colour offset printing and digital printing. Today we make the fascinating opportunities of In-Mould Labeling available to you.

The good feeling of having a safe product.

All our production locations comply with a strict quality and hygiene management system in accordance with DIN EN ISO 9001:2008 and DIN EN ISO 22000:2005, BRC/IoP Global Standard for Packaging and Packaging Materials, ISO 14001:2004 and ISO 50001:2011. At the location Jokey Plastics North America Inc., we also guarantee compliance with the FDA/IMS standard and C-TPAT regulations.

The safety of your customers has top priority for us. Consequently, our quality management complies with the most stringent international standards.

To us, a high level of hygiene awareness and strict adherence to hygiene measures are a matter of course. Independent external laboratories regularly inspect our products, along with the production facilities and processes. All our packagings are suitable for food. This also includes all additives, pigments and PP types which we use.

The Jokey Group implements a sustainable business policy.

For our customers we are a financially sound and growth-orientated partner on whom they will also be able to rely in the future. We want our employees to enjoy working for us and to play their part in the success of the Jokey Group with enthusiasm. And we want to leave a world worth living in behind us for our children – with its ecology intact, healthy living conditions and economic prosperity.

We should all be concerned about **the future** because we will have to spend the rest of our lives there.

Charles F. Kettering, American industrialist (1876–1958)

Economy

The Jokey Group aims for continuous, solid growth and to strengthen its leading position on the market. With over 500 injection moulding machines in 14 plants, our production capacities are flexibly scalable. We regularly invest in the construction of new plants, in modernising existing plants, in innovative technologies and in our research and development. Jokey is a reliable, powerful partner for filling companies of all sizes.

- > Alternative packaging materials made of regranulates, recycles and certified biopolymers for the non-food industry
- > Stackable containers which reduce the costs and the CO² emissions in transportation and logistics
- > Reuse of the packaging as commodities

Our energy management is certified according to DIN ISO 50001, and DIN ISO 14001.

Ecology

Production waste at Jokey is recycled and reused in for manufacturing purposes. We take aspects relating to sustainability into account right at the start of a product lifecycle. We develop solutions which combine economic success with a responsible attitude towards people and the environment.

- > 100% recyclability of materials
- > Provenly sustainable plastics such as PE and PP
- > Thin-walled packagings to use less raw materials and reduce the ecological footprint
- > Barrier packagings which enhance the shelf life without additional cooling (safe food)

Social responsibility

We take on responsibility for the people who work for us and the regions where our locations are situated. We offer our employees secure jobs in a pleasant and collegial environment. We promote their health through state-of-the-art workplace design and healthcare offerings.

The Jokey Group complies with the code of conduct of the General Association of the Plastics Processing Industry (GKV) and consequently the global demands for ethical and moral activity.

Always the right packaging for your goals

The plastic packagings from Jokey are used millions of times each day to fill food and non-food products. Vendors from all sectors, including the international leaders from trade and industry, trust in packaging solutions from Jokey.

Far-sighted industry solutions.

Whether ice cream, adhesives, wall paint or detergent: We know the latest trends in your market and your customers' expectations. As the technology leader in the plastic packaging sector, we develop high-quality, industry-specific solutions which guarantee your product significant advantages in global competition. In the process, we tailor the material, functionality and accessories precisely to the material you fill and to the requirements of your value chain. Jokey packagings guarantee efficient production and logistics processes, satisfy commercial standards and offer the consumer maximum convenience.

Most Jokey series include a large range of volumes. Products for single-person households are just as efficiently packed as bulk consumer portions. Your product family is always uniform at Jokey.

Boxes and trays

The trend is towards small portions: There are ever more single-person households and the convenience segment is growing. Whether delicacies or products from the construction chemicals industry are concerned – small volumes are perfectly packaged in the boxes and trays from Jokey.

Oval buckets

Every day the oval Jokey Euro Tainer proves that it is equally suitable for packaging paints, adhesives and plasters as it is for animal food. Numerous optional accessories improve ease of handling for the user.

Round buckets

Jokey offers you an outstanding selection of round buckets for solid and liquid filling materials. These have been optimised for filling hot or cold materials, resource-saving logistics and consumer-friendly application.

Rectangular and square buckets

Whether on the pallet or the shelf – our rectangular and square buckets make optimum use of the available space. The straight sides make an ideal advertising area to present your brand message effectively at the PoS.

Experience the variety: The standard packaging range

Sophisticated functionality.

Our extensive standard range offers you packagings in all shapes and sizes from 120 ml to 34 l. The containers are robust, flexible and tailored for pallets. A large selection of optional accessories plus easy-opening closure systems and ergonomic handles ensure convenience for the consumer, and various sealing options generate trust. Do you want to pack meat, sausages or fish? With a barrier function, we protect your product against oxygen and steam and prolong its shelf life.

Our service covers every aspect of packaging.

Jokey has many years of experience as a partner of the filling industry. We know your markets, the wishes of your end consumers and the requirements of the retail trade. We will advise you in choosing a packaging which is ideal for your purposes, the suitable accessory options and the design of a decoration which will promote sales. As an expert contact, we will be pleased to answer your questions regarding automation and sealing. Our technical service supports you in the set-up phase at the filling plant. And if any problems should occur, we will very quickly be there to assist you.

Jokey packagings stand for

- > efficient high-performance filling
- > resource- and cost-saving logistics and storage
- > highest international standards with respect to quality and hygiene
- > optimum functionality and convenience
- > branded packaging design which promotes sales

Brilliant. Sensual. Interactive.

Packaging as a multi-sensory, intelligent marketing tool

Draw attention to your product!

Ensure you gain a valuable competitive edge through an attractive packaging design. Our decoration processes offer your product branding all the technical options, from simple and functional to high-resolution and brilliant. No limits are set on your creativity. We implement even the most demanding designs in excellent quality – for all batch sizes. We ensure that your product family is highly recognisable at the PoS.

Container colours

Our containers can be produced in every colour. Naturally also transparent, translucent, luminescent or with glitter effects.

In-Mould Labelling

The brilliant high-definition photographic quality permits a strong emotive presentation of your brand.

Effects: the new IML edition from Jokey

Everything is possible with our innovative In-Mould Labelling: colours, scents, look and feel – and now also interaction with mobile devices, optimised scanner features and uncopyable security functions.

Offset printing

With large batch sizes eight-colour offset printing guarantees you valuable cost benefits.

Digital printing

Do you want to start a preliminary test run? Or are you planning a special campaign? Digital printing provides outstanding photographic quality for small to medium batch sizes.

What decoration is suitable for your product and your marketing aims? Talk to us. We will be pleased to advise you about the technical and design options available.

A Jokey Individual packaging is developed in close collaboration with you. We examine every aspect here: What are the trends? What does the consumer want, what does the retailer want? What type of packaging design promotes sales? And how can production and logistics be optimised? We will assist you with our concentrated experience and expertise through the entire development process.

Jokey Individual

A packaging as unique as your product

Our entire know-how for your custom-mould packaging.

With a packaging shaped and decorated specifically for your product, we ensure you clear brand differentiation. Do you want an original eye-catcher for the consumer sector? Or do you wish to enhance the functionality of the packaging for your commercial customers? When developing a custom-mould packaging, we assist you with excellent know-how, state of the art technology and boundless passion. In a tried and tested, structured process, our 50-person Jokey Individual Team develops your packaging reliably until it is ready for the market.

Packaging development by the technology leader.

Jokey always offers you the latest state of the packaging art in terms of shapeability, functionality, closure systems, material properties and decoration. With our own tool construction company, we guarantee injection moulding machines of the highest quality and with the longest service life.

We design and produce customised packagings:

- > in every injectable geometry
- > in volumes from 25 ml to 50 l
- > from all injectable polymers – from PP and PE through to PS

Special solutions

With an additional range of services

With the know-how of a leading producer, we develop packagings which satisfy a top-class requirements profile. That is what makes us a specialist – and our packagings, too. Here are a few examples.

Barrier to exclude oxygen and steam

Jokey Barrier Tainer (JBT) with integrated barrier to extend the product shelf life.

Suitable for shakers and robust

JET+ and JETO+, the compact buckets for paints and construction chemicals.

Suitable for peel films and ultra-light

Jokey Seal Tainer and Jokey Seal Tainer Square (JST/JSTQ), the kitchen professionals with a broad rim.

UN approval for hazardous materials

Jokey UN – for hazardous materials up to dangerous goods class 2.

Modules for E2 euro containers

Jokey Tray E (JETSE), the modular tray.

Plastic packagings for coatings

Jokey Coating Tainer (JCT), the unbreakable tray that can be stacked in others of the same type.

Ice cream packagings

Large selection of boxes and trays with IML decoration that entices.

Single portions

Small packagings from 120 ml in the standard range, and from 50 ml as Jokey Individual developments.

Are you also looking for a packaging solution for a very special application? Talk to us! Our specialist division Jokey Individual will design a packaging which meet your requirements exactly.

Jokey Technics

Components of uncompromising quality

First-class plastic parts for your individual requirements.

Do you need a case for a computer or an automotive component? As a highly-specialised outsourcing partner, Jokey Technics offers you customised product consulting, process planning and production solutions from a single source. Here you profit from an outstanding vertical range of manufacture: from injection moulding, conditioning and decoration, through to the assembly of entire modules.

All plastics in every injection moulding technique.

Jokey Technics processes all customary thermoplastics, such as PP, PS, PE and ABS, as well as secondary raw materials and biopolymers. Our experienced specialists are masters of all methods of plastic injection moulding – naturally also in the two-component process.

Closing pressures of up to 18,000 kN.

Our state-of-the-art machinery from our own production facility guarantees the quality and efficiency of your parts production. The closing pressures of our injection moulding machines range from 400 kN to 18,000 kN. With these we produce high volume series of parts weighing up to 10 kg – and that always on schedule.

The tool is what counts

We guarantee the quality and precision fit of your parts with precision tools from Jokey Werkzeugbau GmbH.

Our components ensure the good reputation of your brand

A part is only as good as the tool which makes it.

That is why we also have this expertise in our company: Jokey Werkzeugbau GmbH produces precision tools for the entire Jokey Group. On request, we will also order your tool from tried and tested business partners worldwide. We also ensure smooth production of your part by means of our own tool construction department at the Sohland location.

All processes for surface processing.

We enhance your part precisely according to your specifications – optionally by means of hot stamping, coating, pad printing, labelling or In-Mould Labelling.

Last but not least, we subject your part to stringent quality control. In the case of electronic components, we offer an additional safety and performance check.

What we do for you.

We assemble, finish, store, pick, pack, ship and deliver:
We are your reliable outsourcing partner for handling your parts production in its entirety.

Jokey Spa

Brand variety for the private wellness retreat

Your extensive offering in the modern bathroom culture sector.

Our division Jokey Spa comprises the brands Jokey, Sieper and Imagolux. With three-fold expertise, we offer you high-quality mirror cabinets, bathroom furniture and mirrors – from classical to design-orientated in order to meet every requirement and suit every taste. Jokey Spa transforms bathrooms into luxury spas which will thrill your customers.

Quality you can rely on.

Our aesthetic and innovative product series satisfy with the most stringent quality standards – starting with the careful choice of raw material, right through to the sophisticated final check.

Three brands, many benefits.

As our trading partner, you order from an extensive bathroom range from a single supplier. We offer you a partner-like business relationship whose hallmarks are openness, flexibility, adherence to deadlines and a comprehensive service network.

Jokey – mirror cabinets.

The Jokey brand combines functionality and design in a very large selection: Our mirror cabinets are available in the categories practical and inexpensive through to noble and elegant.

Sieper – bathroom furniture and mirror cabinets.

With refreshing interior design ideas, Sieper turns the bathroom into a new living and wellness area. Sieper bathroom furniture stands for maximum convenience and inspiration. Clear lines, harmonious curves, sophisticated down to the last detail. The product range includes mirror cabinets in many colours and shapes and with a variety of exclusive fittings.

Imagolux mirrors.

They lend a new depth to bathrooms and other rooms: the designer mirrors from Imagolux. The large selection of mirrors caters for every individual taste and interior design.

Delightful bathroom ambiances

Jokey Spa offers bathroom furniture to suit every taste and budget. The large selection of state-of-the-art designs, the functionality and high quality guarantee your customers will be satisfied.

The spa for your home

The bathroom is used to care for your body and appearance, but just as much for relaxation. It is at the same time a place of retreat and a luxury spa. The aesthetic designs of Jokey, Sieper and Imagolux will make bathroom dreams come true.
