

Technical information:

CHS 3A

CHS 5A

Spray output per stroke	1.1cc ±0.2cc (water)	2.4cc±0.45cc (water)
Spray Pattern	φ170mm±30mm (150mm distance)	φ200mm±30mm (100mm distance)
Nozzle Orifice	φ 0.4mm	φ 0.6mm
Spray Angle	0°~60° adjustable at nozzle	0°~60° adjustable at nozzle
Endurance	Minimum 50,000 trigger pulls (water)	Minimum 50,000 trigger pulls (water)
Standard Weight	37gram±1.2gram (LB=250mm)	76gram±1.5gram (LB=230mm)

We care for markets worldwide

We are experienced in dealing with a wide range of markets all over the world. We can provide helpful advice regarding choice and specification of sprayers to suit your needs. We can also carry out in house chemical compatibility and function testing on your behalf.

We provide the best custom solutions

We have established a centre of excellence unlike anything else in Europe. We have a well-equipped R&D department and laboratory at your service. Our products are designed and tested in house and we are constantly developing and improving to meet customer demand.

We have facilities for CAD, mould design, finite element analysis, polymer and rapid prototyping. Working alongside the Polymer Processing Research Centre at Queen's University in Belfast, and the Northern Ireland Polymers Association (NIPA), we can provide the best solutions for our customers' needs.

Please get in touch, we would love to help

INDUSTRIAL SPRAYERS

CHS 3A

"The world renowned industrial trigger sprayer from Canyon Europe - the preferred choice for the professional market."

CHS SUPER

"The CHS Super is manufactured from carefully selected and rigorously tested materials, resulting in a highly chemical resistant trigger sprayer especially suited for solvent based liquids."

Adjustable nozzle allows rapid spray configuration from 0-60° spray angle to suit every application.

With a durability of more than 50,000 continuous trigger strokes (that's 120 500ml bottles!) choose CHS for reliability.

All Canyon Europe trigger sprayers are continuously tested & inspected throughout the production process to ensure excellent quality.

Resilient against even the most aggressive liquids.

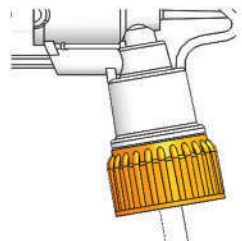

Sealed venting system allowing bottles to be shipped filled with liquid, reducing costs and preventing leaks.

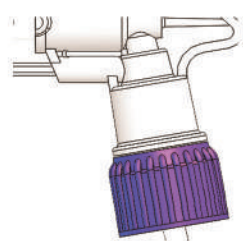

Easy to use even when wearing protective gloves.

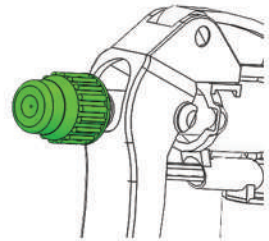

Customise your CHS 3A Contact our team for assistance in choosing options

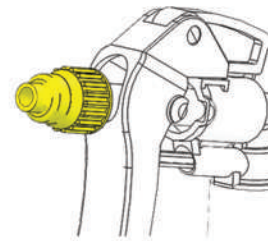

Standard Cap
28/400 screw cap.

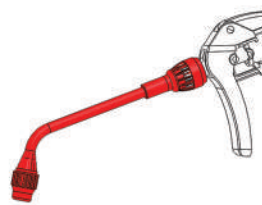

Deep Cap
28/410 screw cap.

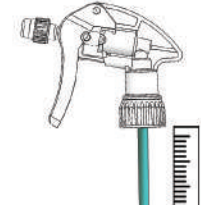

Standard Nozzle
Twist nozzle enabling the spray pattern to be adjusted from narrow jet to wide spray.

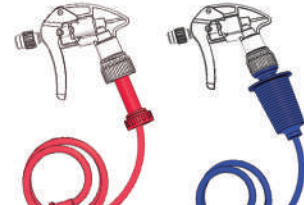

Foaming Nozzle
Twist nozzle from off position to foaming position.

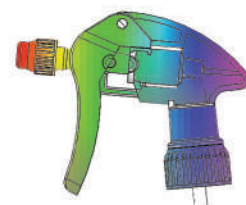

Extension Nozzle
Bent extension nozzle useful for accessing difficult to reach areas.

Tube Length
Tube length can be customised to suit your packaging requirements.

Flexible Tube
Adding a cone fitting to the flexible tube allows it to be used with a wide range of containers. 38mm screw cap also available.

Colour
A wide range of colour options are available to match your branding and requirements.

CHS 5A

"Canyon's largest professional trigger sprayer. With a 2.5cc output the CHS 5A is perfect for heavy duty industrial tasks."

All nozzles in the CHS range are adjustable from spray to jet just by turning the nozzle
