MULTI-LAYER CAST STRETCH FILM

JUMBO ROLL

Catering to specific industrial demand, our Jumbo rolls are much longer than regular machine stretch films but it can be easily unwound using high-speed rewinding machine.

This strong and durable stretch film is designed to meet the challenging and ever-changing requirements in logistics and warehousing industry.

Features:

- Multilayer structure creates good bonding effect.
- Customize film length up to 6000m per roll.
- Good thickness profile and puncture resistance.
- Superior optics and easy for unwind.
- Materials are ROSH compliance.

Benefits:

- Easy convert into various specifications.
- Offer flexibility on dynamic hand roll requirements.
