

It's nice when the **bottle** works as hard as the **cleaning** product inside it.

Whether your product helps keep kitchen counters free from dangerous bacteria or windows sparkling, at Altium, our innovative rigid plastic packaging has got you covered.

The sheer number of household chemicals alone calls for a wide variety of packaging designs. At Altium our creative and reliable packaging will help you find the right one for your product, whether you need a simple container with an ergonomic handle, a dual-neck container with a spout, an angle-neck dispensing squeeze-bottle, or one of the many other bottle designs we offer.

When it comes to your home and your family *it has to be right.*

If we make something, we make it good enough that we'd want it in our home.

Popular options include:

- Neck Finish
- Color
- Handle
- Labels
- Barriers
- Post-Consumer Resin
- Bio-based Resin
- Material
- Lightweighting
