

GROUPE POCHET

Lights on the Maison Pochet grand opening

On Thursday January 14th, the Groupe Pochet opened the doors of "La Maison Pochet" to its customers, who were welcomed by the Board and the shareholders family represented by 3 generations, standing for the long-term future of the company. La Maison Pochet, the Group's headquarters located in Clichy, gathers the Parisian teams of Pochet du Courval, Qualipac and Solev, is symbolic of the alliance of multiple know-hows, and, quest for excellence, and commitment to customer focus.

The facade was illuminated for the occasion

*From left to right:
Laurence Vivant, Chairman of the Supervisory Board, Tristan Farabet, Managing Director, and Irène Gosset, Chair Woman of the Board*

The guests received a very symbolic gift : a beautiful minute glass, illustrating the alliance of the Group's know-hows, produced in Pochet du Courval and Qualipac plants in France and China, displayed in an elegant Priminter case. A real technical challenge, designed by centdegrés agency.
